Phase Four: Church Maturing (2006-2015)

41. The Storm: Struggles (2006-2010)
42. The Calm: Growth (2010-2015)

[from the Preface]

The obvious purpose is to give an accurate and detailed account of the planting and progress of Trinity Baptist Church, Nairobi from its inception in 1978. Throughout I want to acknowledge that whatever has been accomplished is wholly of the Lord. It is by His grace and His providence, and all the praise is to Him and not to me or anyone else. Nothing written is meant to glorify man. The theme of God's sovereign providence in all that has taken place is central...

There is a more fundamental purpose. Why were things done the way they were? Why were we sent to Kenya the way we were? Why did we work the way we did? Why does the church have the character that it does? So at appropriate points in the history I point out the biblical Foundations underlying all we sought to do. You will judge those biblical principles we had, but we believe this is what the Lord wanted from us. Our responsibility was to be faithful to the message and the method (1 Corinthians 4:1-2). We sought to be true to the Lord's instructions and no doubt we fell short. It is by the mercy of the Lord for He did not deal with us as our sins deserve.
